SET UP, CLEAN
UP, AND DAY OF
COORDINATING

If you choose one of these packages, you will be invited to a consultation meeting where we will walk through the venue and customize a layout to fit your needs. During this visit, we will make sure to maximize all that our space can do for your big day, allowing you to walk away stress free. You will leave the consultation knowing exactly how your floor plan will look and you are able to make changes before the wedding day.

+ For “Set Up,” our team will complete the set up and layout of all tables and chairs for your specific wedding/ ceremony. This plan will be finalized 2 months out. *This does not include decorating.

+ For “Clean Up,” we will take the list of cleaning requirements and tear down that are to be completed by every client and will have a clean up crew to efficiently take care of it all for you.

+ For those desiring a “Day-of Coordinator,” this person will be aware of every event and will work to keep the full day on track. The DOC has extensive knowledge of the venue and weddings that have taken place there. Any vendor questions prior to the wedding day can be directed to us and we will help you build a timeline for the day. The Day-of Coordinator will instruct your family & wedding party how to get down the aisle, execute your reception, and make sure it’s all done in a timely and excellent manner.
