Your wedding day is the first day of your new life together. Surround yourself with your friends and family and relax in understated elegance that invites memories to be made, laughs to be shared, and love to flourish. Picture the perfect juxtaposition of linens and crystal against a backdrop of exposed beams, brick and stone with light flooding in from the third floor windows on both sides of the building.

With 7,000 square feet, we offer three distinct rooms that flow from one to the other, giving the layout character to make your event unique.
