# **FIRST FLOOR**

#### "The Temple"

The Temple is the result of a mega-collaboration project involving some of the world's leading sound, lighting, and stage tech designers. Nearly everything in the room has had a past life of rich stories; from the chandeliers fashioned from Jack Daniels whiskey barrels, to decorative reclaimed-wood, and even the staging and Sound equipment.

The (Tait) stage has been on tour with Maroon 5, The Rolling Stones, Madonna, Elton John and Billy Joel, Josh Groban, Lady Gaga, and Ozzy/Black Sabbath. The Clair Global sound equipment has toured with Riverdance and AC/DC, and the lighting and backdrop curtains have traveled the world with Atomic Design (Lititz, PA).

Whether dressed-up for a wedding or dressed-down for a rock concert, the Temple combines rustic charm and urban cool to provide a unique setting for unforgettable events.

## "An Droichead"

Located on the second floor, our An Droichead space includes booth seating, a pool table, and a large mural from which the lounge derives its name. This space can be rented exclusively, or for larger parties, events can extend into the Tig Caleb lounge.

## The Green Roof

We built this 10,000 sq. ft. green roof in the spring of 2011 as part of downtown Lancaster's ongoing goal of reducing storm-water runoff. We completely remodeled in 2017 to accommodate larger events with a new bar, expanded seating, and even vegetable gardens. It's an urban oasis with a great view of the city.

## Wedding Testimonial

"Just days before our great, big, outdoor wedding, we were sure of three things: one, we had more guests than we prepared for; two, we had no tent in the event of rain; three, it was definitely going to rain.

I've never been a great planner, but, even for me, this was looking bad. We considered cancelling the party. We invented ways to un-invite friends so as to keep it "family only". We tried to trick ourselves into finding it reasonable for 100+ people to share 1 small bathroom. Then, when we wracked our brains to think of spaces in Lancaster that would be able to hold the whole count of our party, we thought of Tellus360.

Like sunbeams bursting through rain clouds, we saw the option of Tellus as a beautiful, albeit presumably unavailable, venue. But we called anyway. And Bill answered. So we asked the ridiculous question. And he gave us the incredible answer: yes.

With literally three days notice and within a ten-minute conversation, we had established a room, a time, a price, and a staff. The Tellus team graciously allowed us to bring the band we booked and the food we prepared. They were there when we arrived to help us set up (including Chef Terence, who was kind enough to let us use his kitchenware), and stayed to make sure that our needs were met throughout the party. And really, it was quite a party.

We look back on our wedding day as happily as any couple whose plans weren't completely derailed would. Tellus360 exceeded our expectations with elegance, sweetness, and charm. From the whimsical lighting, to the floor-to-ceiling mural by Aaron Shiflet, to the rustic wood and the red velvet banquet, the space was inviting and warm. Bill and the staff took exceptional care of my (new!) wife and I, and all our people.

We are beyond grateful that our "big day" played out so differently than our months of planning had intended. We count ourselves lucky that it rained. And now, by way of this wonderfully vibrant place, Lancaster has an indelible part in our wedding story.

Truly, in so many ways, Tellus360 is instrumental to the heart of Lancaster County. It beats, it rocks, it explores, it plays, it jams, it thinks, it sings, it nourishes, it tries, it works, it loves. We sure do love Tellus360."
