The word "Weddings" is written in a large, elegant, white cursive script. It is positioned over a thick, horizontal gold brushstroke that has a textured, painterly appearance. The background of the entire image is a light blue and white patterned wallpaper with gold floral and leaf motifs in the corners. On the right side, a bride in a white lace wedding dress and a sparkling headpiece is partially visible, looking down.

What is On-Site Event Coordination

An Event Coordinator, though similar to an event planner, has a more specific set of skills. The role of an Event Coordinator is to primarily execute an event, as opposed to designing it, and bringing it to life. However, this is done in a more logistical way by bringing all of the details together, accomplishing the goal of the event on-site.

Most event coordinators are responsible for organization at the venue specifically and the day of event itself with the client, vendors and event venue staff.
